In comparison with the resistance of the wires used as ground and power rails (40-70 M ohm for power rails, 100M in some large-voltage devices), the resistance of probes is much lower.Long-term safety and efficacy of dual therapy with ezetimibe and simvastatin: an extended phase III trial. The efficacy and safety of monotherapy with ezetimibe or simvastatin was evaluated in a 26-week, open-label, randomized, parallel, multicenter trial. Patients with hyperlipidemia (n = 497) were treated with ezetimibe 10 mg (n = 248) or simvastatin 10 mg (n = 249) with doses titrated to achieve low-density lipoprotein cholesterol (LDL-C) levels
